

## INHS Newsletter – January 2020

Dear INHS members,

Happy New Year to you all and welcome to the first INHS newsletter of 2020. Reflecting back on the past decade we hope that many of you feel a sense of achievement in the advances that have been made to knowledge regarding the causes and consequences of hate and prejudice, which have in turn helped to inform the development of new laws and policies, justice interventions, community measures, education programmes, and monitoring mechanisms. Of course, there have been significant challenges to us all during recent years, and we remain acutely aware of the difficulties that lie ahead in the field of hate studies. As we continue to work together through the Network, we hope that 2020 brings with it renewed efforts to sharing information and collaboration in research and practice.

As always we highlight below new publications and events that may be of interest to our members. We would like to encourage you to get in contact with us if you would like to submit a contribution to our INHS blog. All blogs can be found [here](#).
